

Does the EU AI Act apply to you?

Chart based on the negotiating position adopted by the European Parliament on 14 June 2023

Is the system an "AI system" within the meaning of the Act?

AI system is a "machine-based system that is designed to operate with varying levels of autonomy and that can, for explicit or implicit objectives, generate outputs such as predictions, recommendations, or decisions, that influence physical or virtual environments"

If yes, is your organisation one of the following?

Provider of AI systems

Deployer (user) of AI systems

Importer or distributor of AI systems

If yes, is the AI system being used for an exempted purpose?

Military purpose

Public bodies in third countries using AI systems in the framework of international cooperation or agreements for law enforcement and judicial cooperation

Scientific research purpose

R&D activities regarding AI systems prior to them being placed on the market or put into service

If no, the Act applies

Consider the category the AI system falls under to determine obligations under the Act

Prohibited AI systems

High-risk AI systems

Low or minimal risk AI systems (NB still consider transparency and specific obligations for generative AI)
